Mr. David Waddell
Executive Secretary
Tennessee Regulatory Authority
460 James Robertson Parkway
Nashville, TN 37243-0505

RE: Docket # 02-00477 – Petition to amend Certificate of Convenience and Necessity –
TRA request for additional information

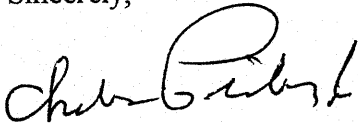

Dear Mr. Waddell:

After acquiring additional information, such a larger scale map and a twenty-year growth boundary map from the city, we have redrawn and revised the area we wish to serve.

I have attached a copy of a letter, which I gave to the city, along with the newly drawn area. As soon as I receive a response from the city, I will forward it to you. The area we wish to serve is marked on the attached map.

If you have any questions concerning this petition, please give me a call.

Sincerely,

Charles Pickney, Jr., President

RE: On-Site Systems Proposed Service Area

Dear Mr. Scurlock:

We received your letter of April 18th in which you stated that the Town of Dover had no objections to us providing sewer service to Cyndi's Restaurant. We wish to thank you for that letter. There has been some confusion, which was created by us due to the lack of a detailed map and lack of detailed information about the town's twenty-year urban growth plan. With a detailed map and a map of the town's twenty-year growth plan, we have redrawn the area we wish to serve.

As you can see from the map and a marked up urban growth plan map, the area we wish to serve, is outside the city's twenty year urban growth boundary. Our company provides decentralized sewer systems and can serve the needs of customers without building a large central treatment facility. It is customary for the Tennessee Regulatory Authority to advise sewer providers in the vicinity of the petition and determine if any existing provider has near future term plans to provide sewer service to the proposed area.

We are requesting a letter from the Town of Dover, Tennessee, stating your near future term intentions of serving the proposed designated service area.

Sincerely,

Charles Pickney, Jr.
President
